Pressing button 1 will make the window disappear.

Tips

The key to this game is being fast on your feet and being where the ball will land. The player with the number and letter above his or her head is the one receiving the ball. Remember that the players will alternate hitting. Position the players slightly in front of the arrow indicated on the receiving court. This is where the ball is expected to land; you can also use the shadow that the ball makes on the court to anticipate its path.

Don't be afraid to be aggressive and go for it. Much can be accomplished by jumping or diving for the ball.

Keep a tight rein on the players; they will quickly run off the court if you let them.

If you find that you are continuously getting clobbered, try the easy mode (see page 5). Also try playing both sides of the court. It is a lot easier to win when you are not going up against the computer.

Call the TurboGrafx hotline at 708-860-3648 for additional game tips.

Tournament Mode

1. When choosing tournament mode, you may either play solo (MAN COM), with a friend (MAN MAN), or watch as the computer plays alone (COM COM).
2. Four characters are presented for the player to choose from. Two players must be selected from these four choices. They will automatically meet the world's strongest opponents.
3. If you have won your tournament, a "password" will appear at the end of the game. Record this password on this booklet, and when you are ready to play again, enter the correct password after selecting the continue mode. You will resume play.

GOOD LUCK! AND REMEMBER, ONLY THOSE WHO WIN THE GAME WILL EVER GET TO SEE THE MYSTERY COMPETITOR!
